

# **Our Place**

Our place to plan and grow  
To learn the things that we do not know  
We have support from staff that care  
So in life we all get treated fair.

From Activities to tasks  
To help master life and its crafts  
We all have fun along the way  
Which makes us better people everyday.

We all have problems and troubled thoughts  
This is why we need support  
To help rebuild our troubled cores  
This helps us all make happy thoughts

We all help and really care  
Helping people with our prayers  
To give them hope and release their pains  
And make amends for all the shame.

When happy or sad our place is glad  
To help all the people with troubled pasts  
Or the ones who've just lost track.

I hope all will listen  
I hope all will change  
For all the people who don't we will pray  
Because after all this is...  
Our place.
